Lavneet Jhakal

Technical Analyst and Aspiring Front-End Developer

I am B.tech Graduate and aspiring front-end developer. Recently I completed a course in java full-stack development at ABC for Technology Training & Upskilling, Bangalore. I am interested in being a part of the IT corporate world and willing to enhance my current technical skills in development and designing.

Experience

○ October 2019 to March 2021

Locus rags (Zucol). Jaipur

Technical Researcher & Analyst

- Simple core Java programs for students of foreign universities.
- Documentation and report writing of programs to elaborate the steps and pseudo codes.
- Research Reports based on the given technical assignments and theoretical content writing in different fields.
- Created various static web pages by using HTML, and CSS for foreign university students.
- Created relational databases by using MySQL, and performed crud operations.

○ Freelancing

- Created different static web pages by using HTML, CSS, and JS for foreign university students.
- Created relational databases by using MySQL, performed crud operations, queries in given assignments, and explanation of all the queries.
- Content writing and research reports that were based on different areas and topics such as non-IT branches and management.

Major-Minor projects

- QUIZZY, Training Project at C-DAC, Jaipur during B.Tech.
 - QUIZZY is an android application that includes different MCQ questions based on Android and core java. In this project I have used Firebase as the database to store all the data, also I created one admin app to upload the questions for users.

Skills

- Java
- MySQL
- HTML
- CSS
- Javascript
- Framework: Bootstrap
- Operating System: Windows 10
- Tools: Visual Studio Code, Eclipse.

Hobbies

- Traveling.
- The electrical and mechanical project works.
- Collecting various tools.

Language

English

Hindi

- **SmartCity AJMER**, Minor and Major Project at Government Engineering College Ajmer.
 - This project included information about various visiting places in Ajmer, along with the good restaurants and hotels based on reviews, & ratings.
- **Personal Web Portfolio**, this project is developed with HTML, CSS, and Js, in this project I have provided all my academic and work experience information in the form of a website.
 - Link: <https://lavneetcodes.github.io/LavneetPortfolio/>
- **Student DB-CRUD Operation**, in this project I have implemented crud operation on the MySQL database that can help to manage student data in a small education organization.
- **The Calculator app** is a simple calculator project that is made by using HTML, CSS, and JS.
 - Link: <https://lavneetcodes.github.io/Calculator-app-/>
